# A2B DATA

## Faster, Better, More Economical Data Extraction and Loading

### Key Features:

Actively Land and Stage your data with no costly development.

Built-in best practice design and Change Data Capture mechanisms for all components of Data Staging

Enhanced operational metadata and dashboard to give you better insights

Immediate data availability from any source to any target

Metadata driven, designed to handle changes in data structures

A2B Data™ is designed to save time and resources and gain immediate analytic ROI on your data. It makes sense that by getting data where it needs to be in minutes instead of days or weeks, the value of your data can be realized far more quickly.

META DATA DATABASE — WEB SERVICE — WEB PORTAL — USER — A2B CLIENT SERVICES — CLIENT SOURCE DATABASE — CSV/XML DOCS — CLIENT TARGET DATABASE

*"Using A2B Data™, we are currently processing updates to over 3,100 tables across our development, QA, and production environments. A2B Data™ quickly and accurately processes data in our operational systems to update our data warehouses daily. We also quickly converted hundreds of processes from an expensive ETL tool to A2B Data™ in a matter of minutes. For data, A2B Data™ is our first choice".*

**- HEALTHCARE DATA WAREHOUSE MANAGER**

### WHY A2B DATA™?

Staging data with data integration software requires a multitude of developers, extreme organization, and excessive time. A2B Data™ is a data staging utility that eliminates these requirements by extracting and loading source data quickly and efficiently to your target, eliminating expensive overhead.

### DOWNLOAD

Everyone who sees A2B Data™ in action is impressed with the accuracy and speed of the processes. Give us the opportunity to show you how efficiently A2B Data™ quickly handles your data staging needs. Visit our community site to download and use the product in production, the first 50 tables are free.
